Snow Warden Programme

The map shows current numbers of volunteer Snow Wardens working in partnership to help keep their communities moving in the winter. WE HAVE 6 at present – one of the highest in the area. If you are interested in helping out when the weather gets tough please put forward your name as we are trying to organise a live training session for interested residents, here at The Radio Wing.

[Online training](#) is now available; the short module should take around 10 minutes to complete. I have also prepared some booklet versions if preferred.

You then need to complete an online [Volunteer Registration Form](#) and send us a photo so that we can make your ID badge.

IN THE MEAN TIME - If you would like to help out as soon as possible, before your registration is activated and your kit arrives – you can fill out a **SPONTANEOUS VOLUNTEER FORM** - which should be returned to JO and then you can be included in the Rota – so we can cover more areas of the development.

FORMS AVAILABLE - at The Radio Wing
